What Remains of Us — Premise

Sal is a mysterious young man with a troubled past and a nature he struggles to understand. Having spent much of his life moving between places, people, and identities, he has learned to keep his darkest secrets hidden from the world.

Everything begins to change when he meets Melody, a guarded and introverted young woman who has spent most of her life trying to remain invisible.

Despite their differences, an unlikely connection develops between them. But as affection turns into love, misunderstandings, personal demons, and secrets neither fully understands begin to threaten their relationship.

Told through Sal's personal journals, What Remains of Us is a dark, intimate story about forbidden love, identity, regret, and the consequences of loving someone when the truth about who you are could destroy everything.
